Dear Brick to Click Families,

We look forward to continuing to provide remote schooling to your child(ren) as we enter the next phase, the hybrid/yellow phase of instruction. Education is truly a community effort and we will all need to work together to make the official start of Brick to Click a success.

### **Kindergarten through 5th grade Brick to Click**

For Kindergarten through 5th-grade Brick to Click students, Monday through Thursday Ms. Heidi will be your contact teacher for Brick to Click lessons. This is Ms. Heidi's sixth year teaching in Vail and her 20th year in education. While we have been lucky to have Ms. Heidi teach art the past 6 years at Esmond Station, her past experience includes teaching 1st grade, math enrichment to 5th and 6th graders, and most recently, creating lessons in science, social studies, and math for remote learners. Ms. Heidi is excited to support our elementary Brick to Click students.

Your students will be getting an invitation with a Schoology access code to join their grade level Brick to Click class. Similar to remote learning, there will be a post for each day with folders for each content (reading/writing and math as well as social studies and science alternating each day). Students will work independently on daily assignments. In addition, Ms. Heidi will be hosting two thirty-minute conferences through Schoology to assist in both ELA and Math.

We have created a technology help email for all of our Brick to Click students so that families will be able to get a faster response when they need technology assistance while working through their Brick to Click lessons. Please contact [estechhelp@vailschooldistrict.org](mailto:estechhelp@vailschooldistrict.org) for tech support.

Thank you for your understanding as we plan through all of the logistics to reopening our physical campus to our students. We appreciate the grace you have shown throughout this process. Please reach out to me with any questions.
